PARIS, Mar. 29.—An "appeal to the people," issued in Spain has been declared seditious by the government, according to Madrid dispatches. The signers of the appeal were not disclosed. The cabinet has taken the case in its own hands and will deal summarily with the subscribers.

WASHINGTON, D. C., Mar. 29.—Frequent reports of widespread unrest in Spain, because of the attitude toward the war, and food shortage, have caused state department officials to receive news of the suspension of constitutional guarantees without surprise. The war policy has been a deep cause of disension in Spain's court, and the clergy and army have been reported pro-German so the allies are not trusted. Business interests and the people are reported generally anti-German.

NINETY DAY LOAN OF \$50,000,000

RESERVE BANKS TIDE OVER THE GOVERNMENT TO THE END OF FISCAL YEAR

(By Associated Press.)
WASHINGTON, D. C., Mar. 29.—The 12 federal reserve banks today over-subscribed on 24 hours' notice a 90-day loan to the government of \$50,000,000 at the rate of two per cent a year.

The money was borrowed on 90-day treasury certificates of indebtedness to help tide over the government till June, when the great stream of income and internal revenue taxes will flow into the treasury. An additional \$50,000,000, it was announced, may be borrowed in the same manner before the close of the fiscal year.

Temporary financing of the government in this manner was made necessary by the depleted condition of the balance in the general fund of the treasury, reduced to approximately \$58,000,000, and facing a further reduction of \$25,000,000 Saturday when the government will issue a warrant for that amount in payment of the Danish West Indies.

They will be asked to assemble at some center like Liege, or preferably a German city, such as Cologne, Karlsruhe or Munich, which they would not be allowed to leave for the period mentioned.

ONLY STIRRING UP CHANCE TO FIGHT BY GOING 3,000 MILES TO LOSE MILLIONS OF AMERICAN LIVES

(By Associated Press.)
MIAMI, Florida, Mar. 29.—Bryan addressed an appeal to the senate and house today urging an attempt to secure a suspension of German ruthlessness through the so-called investigation of disputes by an international tribunal. He also asked Congress to consult the wishes of the people through a referendum if it decides on war.

After saying a declaration of war means signing the death warrants of thousands, even millions, and laying a grievous burden on future generations, Bryan asked Congress to consider: "First, that the wrongs you would punish are not intended primarily against this country, but are acts of desperation against other nations."

"Second, that our land is not threatened with invasion, but we are asked to go 3000 miles for a chance to fight."

"Third, that we have not the excuse for going to war that the European nations had, who had no machinery for peace. We have a peace plan." This refers to Bryan's plan for a tribunal.

LONDON, Mar. 29.—A Berlin report says the Chancellor may offer a modification of the submarine order in a final attempt to stave off war with the United States.

The report comes direct from Germany, according to information in the hands of the Associated Press. It is understood that von Bethmann

Holtweg in his coming speech not only will offer a large measure of electoral reform, but a possible modification of the submarine campaign.

The German government is greatly stirred by the revolution in Russia, especially regarding the effect of American opinion. It believes internal reform in Germany will do more to soften the animosity of the American people than anything else.

they had become and why it was decided to run no risks of another allied offensive in this sector. Five miles of slogging along the old German lines in the vicinity of Baume today revealed a picture of ghastliness which may never be seen again in this or any other war. The front line was a long open, dilapidated, crumbling grave, which disappeared in the mud at times, but could be picked up further along by the bodies that marked the way.

One realized with a shudder how the men, doomed to live in these trenches, had been plagued by their own dead. Such a ceremony as decent burial had been wholly out of the question and there was no means

of conveying the bodies to the rear. It had been like passing through a fiery rain from bases to bring up food and water to the living. So the dead had simply been tossed out of the trenches, only to be blown back again by an exploding shell.

Sometimes they came back in fragments, for there were arms and legs, feet and hands, everywhere. Occasionally graves had been dug in the sides of the trench itself, but the dead could not rest there. At frequent intervals the inevitable skeleton hands and feet protruded from the trench's walls. Grim sights this war has had
